

**DIVISION OF FEED & FERTILIZER**  
Arkansas State Plant Board  
Little Rock, AR

**Requirements for Obtaining an Agricultural Consultant's License**

- ! Completed Pre-Application and copy of college transcript must be submitted and approved by the Division Director before applicant can be tested. Once approved the applicant will be notified by letter or phone that he is eligible to be tested.
- ! Applicant must pass the Agricultural Consultant's test before he can be licensed.
- ! After passing the test the applicant must complete an application for a license and submit \$50.00 fee.
- ! Each license holder who has been licensed for three years is responsible for providing proof of attendance at two or more **approved continuing education meetings** during a three year period. This proof must be on file in our office before any future license can be issued.
- ! Agricultural Consultant's licenses expire December 31 of each year.
